📚 Selected Projects

Austrian Library AI Digitalization Project 2025-2 - 2026-2

- Led the end-to-end web development and database implementation from scratch.
- Fine-tuned BERT for multi-class genre classificaiton, replacing manual tagging.
- Built a semantic search system via embedding model and FAISS vector indexing
- Coordinated undergraduate assistants and managed the project's overall digitization workflow.

German Declension Trainer Service 2026-1

- Fine-tuned Whisper-Tiny on a custom dataset for German noun-phrase speech recognition under lightweight deployment constraints.
- Evaluated the model using WER and human-assessment correlation, obtaining performance comparable to Whisper-Large, and deployed the resulting learning application online.
